Mayor and Board of Trustees
Village of Glenwood

The Glenwoodie Golf Course has approached the Finance Committee regarding 3 projects:

1. New Soundsystem
2. New Dance Floor
3. Carpet Replacement

It is the opinion of the Finance Committee that the projects were not specifically allocated for but funds are in the Glenwoodie Budget and will be used for these improvements. The improvements requested should not exceed $60,000.

Sincerely

Leon Moore (LB)

Leon Moore
Committee Chair

Glenwoodie

GLENWOODIE BALLROOM IMPROVEMENTS

DANCE FLOOR

OPTION 1 – current like for like replacement – **Palmer Snyder** 3' X 3' parquet wood panels – 45,080

Warranty – material and workmanship - 5 years

OPTION 3 – **Snap-Lock** vinyl panel dance floor - $5,597.98

Workmanship warranty – 20 years – Laminated top – 3 years. Replacement cost on a sliding scale with age of product.

Option 3 – **Everblock** Modular Dance Floor - $5,476

Warranty –2 years

RECOMMENDATION – SnapLock

RATIONALE – Elevation similar to current floor. Warranty better. Replacement cost lower. Quality of Everblock inferior. Palmer Snyder cost-prohibitive.

CARPET

OPTION 1 - **Leon's** – wall to wall carpet tiles with field and border. Includes installation, removal of existing carpet and haulaway - $26,000. Samples on site

Vinyl laminate to be installed by doors - $2,300 – Samples on site.

OPTION 2 – **New Floor Coverings, Inc**– Wall to wall broadloom with field and border. Includes installation, removal of existing carpet and haulaway - $24,767. Samples on site.

Vinyl laminate to be installed by doors - $2,300 – Samples on site.

OPTION 3 - **Ohi** – Comparable Broadloom Carpet - $29,532 - Samples on site.

Includes removal of old carpet, floor prep and install new carpet.

RECOMMENDATION – Leon's

RATIONALE – Local company with good customer service and quick response times. Slightly additional cost of carpet tiles worth additional expense. Ability to replace one soiled carpet tile is great value.

Snap Lock Industries, Inc.
Exhibit/Dance Floor Warranty
20 Year Limited Base Warranty
3 Year Limited Laminated Finish Warranty

Snap Lock Industries, Inc. warrants SNAP LOCK base flooring covered herein to original purchaser to be free from defects in workmanship and material for a period of twenty (20) years from the date of original purchase. Snap Lock Industries warrants SNAP LOCK laminated finish (top) for a period of three (3) years from the date of original purchase. Abnormal use and/or abuse specifically nullify the warranty on that flooring.

Abnormal deterioration and/or failure under normal use of flooring covered during the warranty period, due to defects in workmanship or material shall be replaced with like (or if unavailable similar) flooring at no charge or at a prorated price as outlined below. This is the limit of the liability of Snap Lock Ind.

This warranty is void if floor tiles have been damaged by accident, unreasonable use, neglect, improper installation or any other cause not arising out of defects in material or workmanship of the flooring. The interlocking system is included under the warranty unless the flooring is disassembled improperly (pulling, tearing, etc.) See installation instructions for proper disassembly procedure. Appearance of replacement tiles will vary from those already aged and weathered and is to be expected.

REPLACEMENT COST TO THE CUSTOMER (% is based on retail list prices at the time of claim), between 0-5 years – no cost, between 6-7 years – 45% of retail price at the time of claim, between 8-20 years – 70% of retail price at the time of claim.

Authorization and verification of warranty registration must be obtained from Snap Lock Ind. 2330 W. California Ave, Salt Lake City, UT 84104, U.S.A. telephone: (800)457-0174, fax: (801)746-0180, before any merchandise can be replaced. Disassembly and re-installation are the responsibility of the buyer. Customer will be requested to send a sample of one or more full tiles and/or a photograph of the entire surface which is believed to be defective. Tile will be analyzed and pictures of accessories studied to determine validity of warranty claim. Replaced tiles will become the property of Snap Lock Ind. for disposition as directed by it.

Snap Lock Industries does not warranty the capability of any installer. Snap Lock Industries is not a joint venture with any dealer or any others and unauthorized officers of the company have no authority to bind or obligate Snap Lock Industries in any manner whatsoever.

Any alteration of this warranty shall invalidate the warranty in it entirety. No warranties expressed or implied are made beyond the conditions set forth herein.

NOTE: Snap Lock Industries will only warrant the items covered in the warranty for the first three years under the conditions of this warranty.

These warranties give you specific legal rights and you may also have other rights which may vary from state to state. Snap Lock Industries does not authorize any person to create for it any other obligation or liability in connection with these components. TO THE EXTENT ALLOWED BY LAW, ANY IMPLIED WARRANTY OF MERCHANT ABILITY OR FITNESS FOR A PARTICULAR PURPOSE APPLICABLE TO THESE COMPONENTS IS LIMITED IN DURATION TO THE DURATION OF THESE WRITTEN WARRANTIES, NEITHER SNAP LOCK INDUSTRIES NOR THE SELLING DEALER SHALL BE LIABLE FOR LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, OR CONSEQUENTIAL DAMAGES.

Some states do not allow limitations on how long an implied warranty or the exclusion or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

FLOORING APPLICATIONS

The Perfect Choice for Any Occasion

You can rest assured you're getting the most advanced, highest quality portable dance floor and special event flooring system available for any budget. For over 30 years, SnapLock Industries has been manufacturing and supplying the industry's leading portable dance floors and modular flooring systems. Our patented, interlocking portable floor systems not only provide a superior dance surface but ensure that installation is a *"snap"*. SnapLock Dance Floors are the best choice for all your indoor and outdoor special events.

Portable Dance Floors

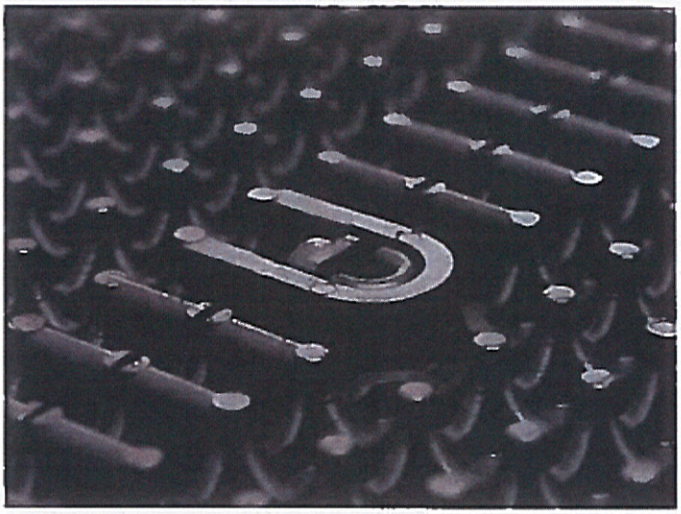
A popular choice for a portable, stable, and attractive foundation for your tent event, wedding, trade show, and more. The beauty and simplicity add a touch of class with elegant, neutral surfaces that are suitable for virtually any event. Most companies pay for their floor in four rentals or less!

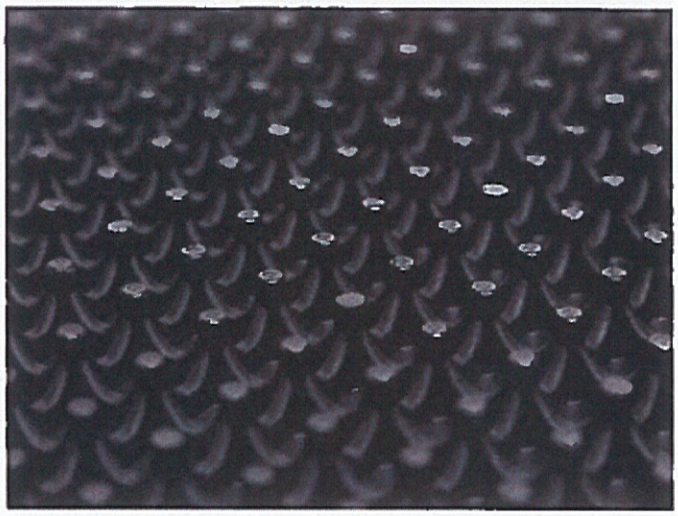
Temporary Events & Exhibits

Commercial exhibits are high-traffic, demanding environments where appearances and ease of portability really matter. SnapLock portable event flooring is designed with this in mind. Not only will you find installation and removal to be a "snap" but all our portable flooring is low maintenance and easily portable. Choose from multiple color options and designs to customize your exhibit space whether it be indoor or outdoor.

TECHNOLOGY

Made in the U.S.A





The PowerLock™ Positive-Locking System

Engineered to handle heavy loads, the patented PowerLocks become part of the understructure when engaged. Multi-patented Step-N-Snap design makes for no tools, no glues, and no toxic fumes.

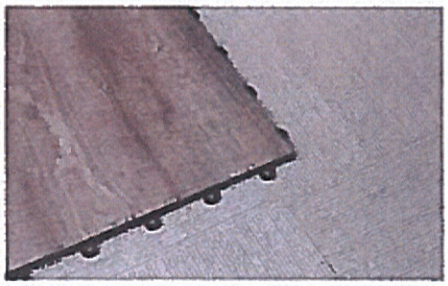
The Dancers Have Moves, Not the Floor

No Walk™ Technology, available in Classic and Plus, engineered with 840 support structures per square foot ensures that your floor stays put all throughout your event.

EASY INSTALLATION

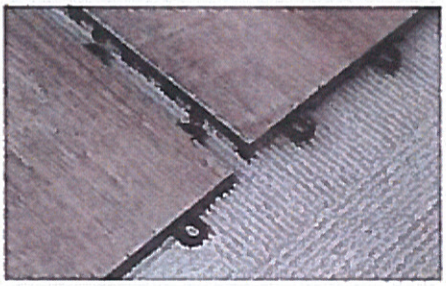
It's a *"Snap!"*— No Tools Required

Time is money. The sooner you can deploy your floor the happier your clients will be. In three lightning-fast steps, you can have your surface fully installed in minutes or less.



Step One

Lay down your first panel in any one corner, pointing the female PowerLocks (loops) in the two directions that additional panels are to be added.



Step Two

Place the next panel so that the male PowerLocks (pegs) line up over the top of the female loops on the first panel.

Step Three

Gently step along the joint of the two panels. You will hear and feel the PowerLocks snap into place as you go.

It's That Simple

Once the two panels are joined, repeat steps one through three, remembering to keep the female PowerLocks aligned, until your floor is complete.

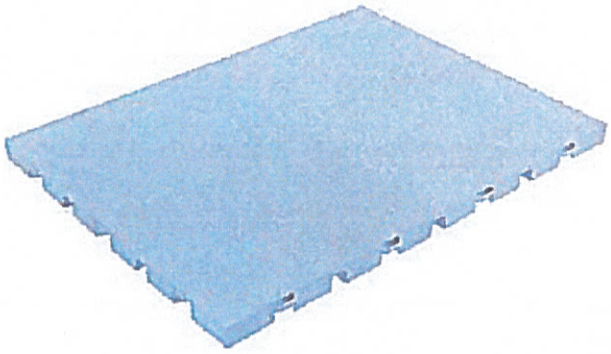
TENT AND EVENT FLOORS

MODULAR AND PORTABLE INTERLOCKING FLOORING FOR TENTS AND EVENTS



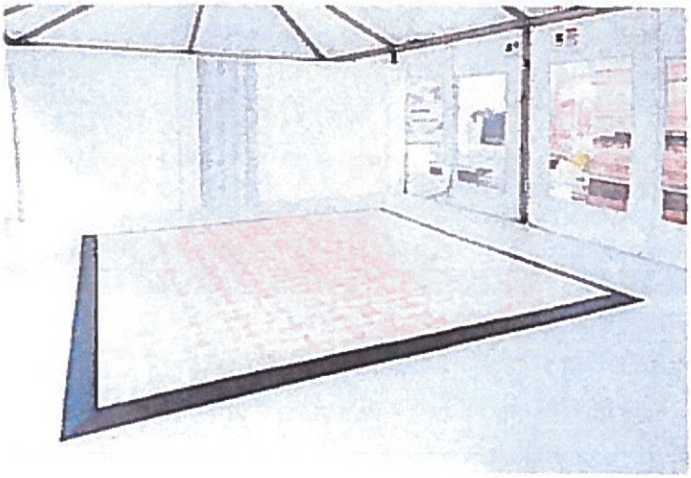
TENT FLOORING FOR EVENTS AND INDUSTRIAL NEEDS

EverBlock tent flooring is ideal for corporate, residential, and industrial tents and shelters.

Our modular flooring sections transport efficiently on pallets and deploy quickly without tools or material handling equipment.

Unlike other interlocking flooring systems, EverBlock tent flooring is a SYSTEM, meaning it integrates with other versions of EverBlock flooring as well as with EverBlock building blocks.

This versatility allows for previously unimaginable combinations - tent floors with inlaid dance floors, with raised floors for runways and staging, all integrated with walls and more. There is no other system that provides such ease of use, combined with the incredible versatility of EverBlock Flooring.



- Corporate Event Tents
- Party and Wedding Tents
- Fair and Festival Tents
- Tournaments and Sporting Hospitality Tents
- Warehouse and Storage Tents
- Kiosks and Retail Tents
- Pathways Between Tents

DANCE FLOORS

MODULAR INTERLOCKING DANCE FLOORS

EverDance is the ideal dance floor for a variety of indoor and outdoor applications. From hotels to convention centers and from party rental companies to tent and event companies, EverDance is the perfect portable dance floor for all types of events.

Purchase individual tiles or complete dance floor packages, depending on your needs.

The simple interlock methodology, durable construction, and realistic wood-grain finish of the EverDance Dance module all contribute to making EverBlock the perfect choice for a variety of venues and organizations.

- Hotels
- Banquet Halls
- Event Centers
- Convention Centers
- Houses of Worship
- Tented Events
- Schools
- Museums
- Arenas
- Recreation Centers

TRADE SHOW FLOORING SYSTEMS AND RETAIL DISPLAY FLOORS

EverBlock flooring is perfect for exhibitions and trade shows and is ideal as flooring for indoor and outdoor exhibits.

Add LED lights within the integrated bi-directional cable channels of each module for dramatic flooring effects.

EverBlock exhibit floors provide a modern and clean look that compliments the theme of any exhibit or booth, yet doesn't distract from the other elements of the installation.

- Trade Show Booths
- Outdoor Exhibits
- Exhibition Booths
- Museum Displays
- Retail Displays
- Concession Kiosks
- Experiential Exhibits

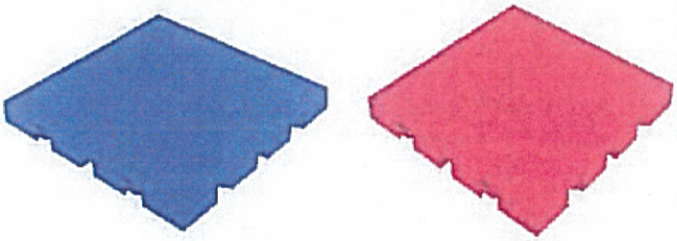
GARAGE FLOORING

RESIDENTIAL AND INDUSTRIAL GARAGE FLOORS

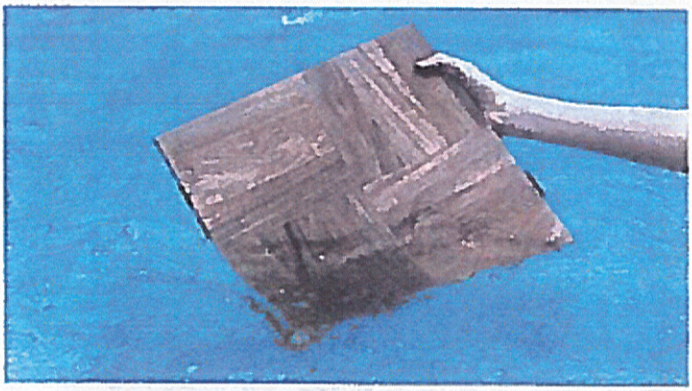
EverBlock can handle the weight of heavy cars, furniture, motorcycles, equipment and is easy to clean with standard cleaning solutions.

The floor itself is resistant to chemicals, oils, and automotive fluids and will stand up to the rigors of daily garage or basement floor use.

EverBlock Flooring is fully waterproof and may be used in damp and high-humidity areas. Floors will not rot, warp, delaminate or become moldy, even when fully submerged.



16 color options allow you to customize your floor



100% weather and waterproof flooring tiles

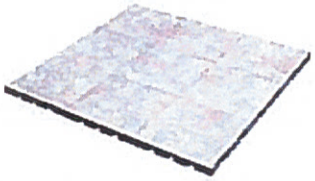
BASEMENT FLOORING FOR WET OR DAMAGED AREAS

EverBlock Floors are perfect for basement floor use. The wide range of colors and wood finishes of the EverBlock Flooring system enables to you to design unique and stylish floors, in 16 colors and 4 wood finishes, and to alternate colors as needed to create patterns and to achieve the desired look and effect.

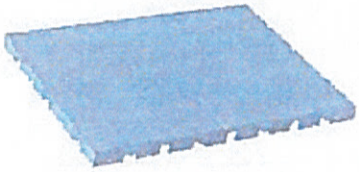
Cover unsightly and damaged floors or simply add some pizazz to your existing concrete floor. Once installed, EverBlock Flooring will lay flat over the existing sub-floor and provide a more finished look in your garage or basement.

In basements, use EverBlock as a raised subfloor, onto which carpet and other surfaces may be installed.

BASEMENT FLOORING



STADIUM TURF PROTECTION



- Concerts
- Graduations
- On-Field Tradeshows
- Monster Truck Events
- Parties & Corporate Events

NATURAL AND SYNTHETIC TURF PROTECTION SYSTEMS

EverBlock's unique cross ribbing distributes weight effectively across flooring sections, preventing soil compaction, maintaining proper moisture levels, and creating open areas that promote ventilation and water flow. The unique underside design creates a space for grass blades to remain protected from the type of wear and soil compaction that occurs under foot traffic.

With EverBlock flooring, thousands of visitors can walk, jump, and dance on the floor, while the turf below remains safe and ready for play.

EverBlock is ideal for full field protection against pedestrian traffic, lightweight vehicles, equipment (such as speakers and mixing stations), and rolling concert cases. In addition to full field protection, use EverBlock along sidelines, during play, to prevent wear to the turf and to provide a dry surface for athletes and staff.

ICE ARENA COVER SYSTEMS

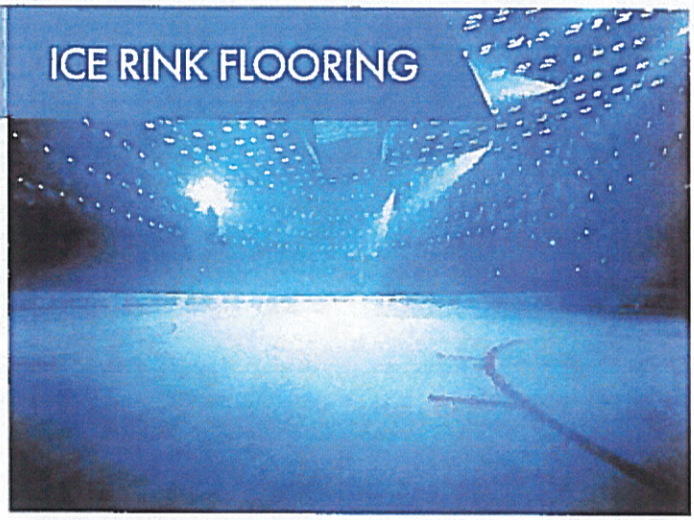
EverBlock arena flooring is designed to protect your ice, while keeping attendees warm above the ice surface.

By containing air in cavities between the top layer and bottom layer there is a substantial difference between the temperature of the ice below and the temperature of the top surface of the flooring.

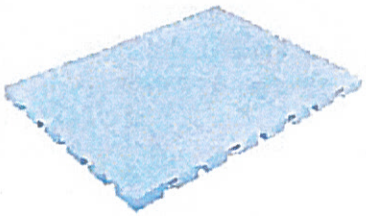
Additionally, the insulation that the flooring provides allows you to save on cooling the floor below (and on heating the interior of your building).

The underside of the flooring is flat, preventing ridges in your ice surface, yet contains small traction nubs to prevent movement of the flooring on the ice surface below.

ICE RINK FLOORING

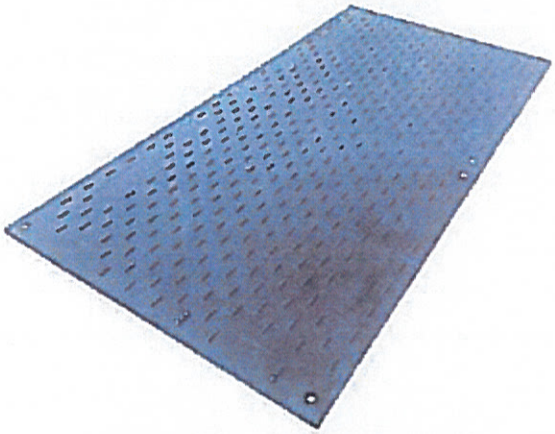


- Concerts
- Sub-Floor For Game Courts
- Graduations & Assemblies
- On-Rink Events & Parties
- On-Rink Trade Shows & Exhibitions



ACCESS MATTING

GROUND PROTECTION MATS



EVERBLOCK ACCESS MATS HANDLE HEAVY WEIGHTS AND MOVING LOADS

EverBlock's EverRoad ground protection mats are designed to resist heavy moving loads and are manufactured using a high quality HDPE material that provides the perfect balance between stiffness and flexibility, allowing mats to gently flex under heavy loads, without cracking or breaking.

Mats provide stability under moving loads and prevent rutting and displacement of soil, grass, and mud. From trucks, to forklifts EverBlock matting can withstand incredible loads (120-ton vehicles can easily be handled), while protecting the sub-surface and providing a firm support base for traffic, work, or event attendees. By distributing weights over a larger area, EverBlock mats are the perfect ground protection mats and trackway for use at stadiums and sports fields and on high-end lawns and parklands.

EverBlock ground protection mats can be interconnected using our tip and lock EverBlock Connector Links, which requires no tools for installation.

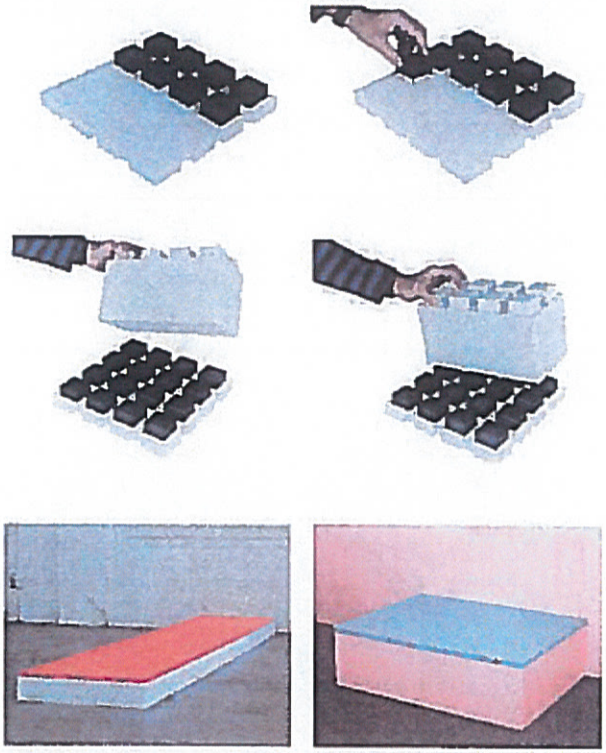
- Lawn & Parkland Protection
- Sports Field Protection
- Access Over Soft Ground
- Sidewalk Protection
- Access Over Sand
- Boneyard Flooring
- Work Platforms & Trackway
- Equipment Pads
- Forklift, Boom Lift, Backhoe Access

Available in black or white. White colored mats provide great protection to grass surfaces and lowers mat surface temperatures.

MATS INTERLOCK FOR GREATER PROTECTION AND SAFETY, AND OFFER AN ATTRACTIVE ANTI-SLIP TREAD PATTERN

EVERBLOCK CONNECTOR LUG TILE

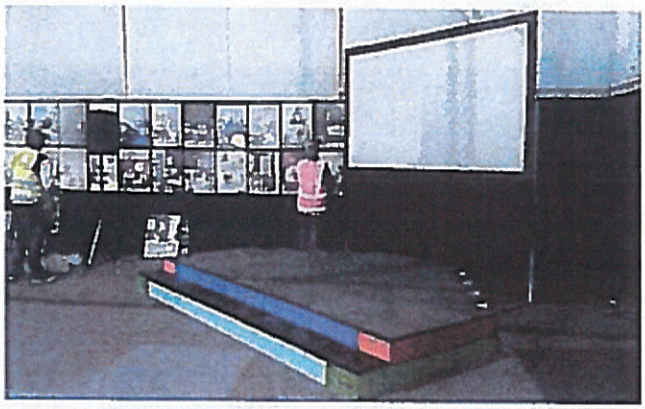
BASE FLOORING FOR EVERBLOCK BUILDING BLOCKS



The EverBlock connector lug tile system allows EverBlock building blocks to nest on top of the flooring, while the lugs prevent movement of the blocks and support walls and other structures.

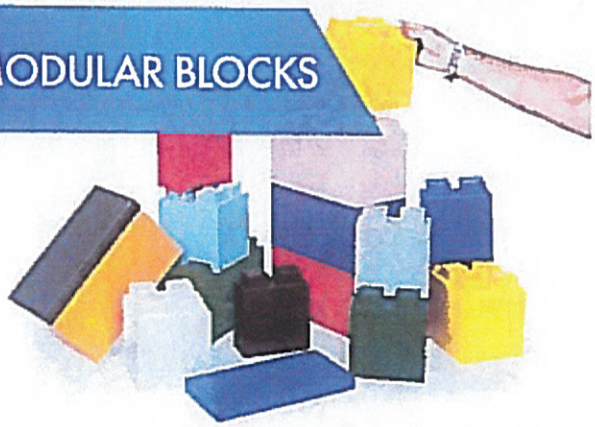
This securing method is ideal for trade show exhibits, staging, event booths, sheds, or other structures where the integrity of the perimeter wall is important. It is also ideal for free play areas, where a gridded base is desired.

Each Connector Lug is designed to align with existing drainage holes on the EverBlock Drainage Top (DT) versions.



BUILDING BLOCKS THAT WORK WITH EVERBLOCK FLOORING

MODULAR BLOCKS



In addition to modular flooring systems, EverBlock also manufactures a complete line of compatible modular building blocks, used to build temporary and permanent walls, trade show exhibits, furniture, props, and more.

Whether you are a homeowner looking to create a room divider in a loft space or kids bedroom, an office looking to install demountable walls, a factory looking to divide their space, a gym looking to provide a colorful and fun enclosure for a play or workout area, or a special event looking to divide tents or ballrooms in an elegant fashion, the versatility of EverBlock makes these types of projects a "snap".

Our modular building blocks connect both on top of and underneath EverBlock Flooring to create a fully integrated building system.

EverBlock Flooring

FAQ FREQUENTLY ASKED QUESTIONS

What Type Of Flooring Do I Need?

Depending on your specific application, we have several different types of flooring that may work for your needs. Under the applications pull down tab above, there is a list of applications for which our floors are suited. In each application section there is a list of the products that are ideal for the specific use.

How Much Flooring Do I Need?

We can help you figure out the number of square feet of flooring that you need. Typically, you take the length of the space multiplied by the width of the space to get the total number of sq/ft of floor (i.e. LxW). In some cases, if you have an irregularly sized area you may need to measure the total square footage in sections and add the sections together. By providing us with a floor plan we can help you figure out the number of square feet you require. You can also use our online 3D Virtual Builder to design your space (and any color patterns) and figure out the number of sq/ft required for each color.

Note that we offer two different module sizes and one mat size. EverBase is a 12" x 12" module, which is 1 sq/ft in total. EverBase 2 is 18" x 24", which is 3 sq/ft in total. It is less expensive to build a floor with EverBase 2, but you get a little less flexibility or "resolution" to make patterns or designs. A combination of EverBase and EverBase 2 is usually best for larger floors in which you want to add some detail, such as a dance floor or patterned floor within.
For the EverRoad Access Matting, each mat is 4ft x 8ft (48" x 96") or 32 sq/ft per mat.

How Long Does It Take To Install EverBlock Flooring?

EverBase and EverBase 2 flooring, when installed by an experienced crew, can be installed at the rate of about 1,000 sq/ft per person per hour from pre-assembled 3ft x 3ft or 3ft x 4ft sheets. Dismantling your floor takes about half the time it takes to install the floor, when the proper tip and disconnect technique is used.

Most of the time for installation involves making sure the product is close to the location of installation, so that you don't have to walk back and forth to get flooring sections and then to place them into position.

How Long Does It Take To Get EverBlock Flooring?

Typically we can delivery up to 25,000 sq/ft of flooring within 10 days, anywhere in the continental USA. From time to time we experience 2-3 week backlogs on production so it is good to leave as much time as possible to receive your floor.

Contact us if you have specific timing requirements and we usually can adjust our schedule to accommodate your deadlines.

Where Is EverBlock Flooring Manufactured?

EverBlock Flooring is 100% manufactured in the USA, at our molding facility.

How Long Has EverBlock Been In Business?

We have been in business just about 3 years (as of the beginning of 2018). The founder of EverBlock has over 25 years experience in the modular flooring industry and was a pioneer in designing, patenting, and refining many of the modular floors in-use today. He has built and sold two different modular flooring businesses, with EverBlock being his latest venture.

Is EverBlock Flooring Made From Recycled Material?

Yes... and no. All of our Dance Floor (wood look) versions are manufactured using 100% recycled material. All Black EverBlock flooring is also manufactured using 100% recycled material. The other flooring colors are manufactured using new material, in an effort to maintain color consistency and quality.

We are always working with our material suppliers to obtain quality recycled product that can be used in colors other than Black, but at this time have not found a feedstock that we are comfortable with.

What Type Of Warranty Do You Offer?

We offer a 3 year limited warranty to the original purchaser that the product (a) conforms to EverBlock published specifications, and (b) is free from defects in material and workmanship. We will replace at no cost defective product that does not meet our standards.

How Is EverBlock Flooring Transported?

The EverBlock Transport Cart features rubber, large diameter, caster wheels that enable you to easily move heavy loads, single-handedly, without damaging the floor surface below.

A detachable push handle facilitates storage and easy transport of your carts and is used to push carts without pressing on the stack of flooring.

Transport roughly 1000 sq/ft of EverDance Dance Floor and 800 sq/ft of tent flooring on a standard EverBlock cart, depending on facility height restrictions or doorway limitations.

Is EverBlock Flooring Fire Rated?

Yes. EverBlock Flooring has been tested to both UL94 HB (Standard for Safety of Flammability of Plastic Materials for Parts in Devices) and ASTM D2859 (Standard Test Method For Flammability of Finished Textile Floor Covering Materials), two standards commonly used in the industry.

What Is The Return Policy?

Unused product may be returned in its original packaging for a 15% re-stocking fee, plus round trip freight. We encourage you to think carefully about your order and about your specific needs, as the cost of returning flooring can be quite high for both parties. We do not accept returns of used or damaged product.

UNIQUE PRODUCT FEATURES

MODULAR FLOORING SOLUTIONS

Our Floor Versions Work Together To Create A Completely Integrated Flooring System

Each EverBlock floor version contains unique features specific to its application, yet the modules work together and can interconnect, providing the ultimate in flexibility. For example, our dance floors will fully connect to a surrounding tent floor to create a seamless overall look for your event.

We Incorporate The Latest In Modular Flooring Technology

EverBlock incorporates the latest technology and aesthetic trends in modular flooring design, the most advanced connection system technology, and a focus on structural strength. EverBlock Flooring was designed by one of the pioneers in modular flooring systems, Arnon Rosan, who has had over 25 years of experience designing, manufacturing, and installing millions of square feet of modular flooring throughout the world.

Our Systems Are Quick And Easy To Install And Remove

All EverBlock Flooring interconnects using EverBlock's proprietary quick-connect locking system, providing incredible durability, while being easy to connect and disconnect. Simply slide sections into position and step down on tiles to connect. To disconnect simply tip sections upwards, disconnecting the specialized locking tab and disconnecting the section.

Re-Usable And Re-Configurable Flooring System

EverBlock Flooring is completely re-useable. When your event or function is over or when you are moving or need to reconfigure your space, simply disconnect EverBlock tiles and transport to the next location. It is a highly profitable rental item as well, allowing party and tent rental companies to re-coupe their investment in only 3-4 rentals.

EverBlock Flooring Is Durable And Long Lasting

All EverBlock Flooring versions can be used outdoors, is chemical resistant and easy to clean.

All of our flooring is completely waterproof, including wood finish dance and event floors.

Our modular flooring systems can support tremendous weights and can handle the traffic of large scale events and gatherings.

EverBlock Flooring Features Integrated Cable Channels

EverBlock Flooring modules contain structural cross-ribs for additional strength and integrated cable and drainage channels on the underside, which enable you to run networking and power cables under your floor and allow rain and water to flow underneath the floor. You can also run LED lights to illuminate translucent versions of the floor, for dramatic effects.

All EverBlock Floors Store Easily And Transport Compactly

EverBlock Flooring transports in pre-assembled 3ft x 3ft or 3ft x 4ft sections, depending on your preferred size. These section sizes are ideal for fast installation and removal as they can be handled by one person comfortably.

70 pre-assembled sections can be loaded on a standard pallet, allowing for 630 to 840 square feet to be transported on a single pallet.

ADA Compliant Transition Edging

EverBlock's Transition Edging pieces provide a smooth transition between the sub-floor and the surface of the EverBlock. Use EverBlock Edging for tent floors, dance floors, exhibit floors, entry-ways, or wherever you need to provide a safe and gradual transition. Ramps provide a smooth transition from the ground surface onto the flooring and meet ADA guidelines for accessibility.

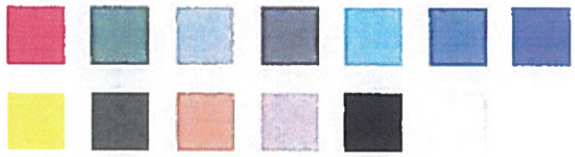
FLOORING PRODUCT SPECIFICATIONS

SIZES & WEIGHTS:

EverBase 1 (EBF1):	12"L x 12"W x 1.1"H (1.27 lbs.)
- (ST) Solid Top	
- (DT) Drainage Top	
EverBase 2 (EBF2):	24"L x 18" W x 1.1"H (3.75 lbs.)
- (ST) Solid Top	
- (DT) Drainage Top	
EverDance (EBFD):	12"L x 12"W x 1.1"H (1.27 lbs.)
EverRoad Access Mat (EBAM4X8):	8'L x 4'W x 0.5"H (70 lbs.)

COLORS:

We offer a wide pallet of colors, enabling you to match design needs, corporate colors, event themes, or other color requirements. Mix and match colors as needed to build beautiful and dramatic creations.



**Metallic gold, metallic silver and translucent are also available*
Custom colors available with minimum order quantities.

EASILY TRANSPORTABLE

Smaller shipments may be sent with small package parcel services such as UPS or FedEx.

For larger shipments, EverBlock flooring modules stack neatly on pallets and can be shipped compactly via LTL (less than truckload), standard trucks, or overseas shipping containers.

EBF1 & EBFD: Stack 9 modules per layer on traditional 40" x 48" pallets, up to 70 layers high, for a total of 630 sq/ft per standard pallet (Weight 810 10lbs).

EBF2: Stack 4 modules per layer on traditional 40" x 48" pallets, up to 70 layers high, for a total of 840 sq/ft per standard pallet (Weight 1,050lbs).

FIRE RATING:

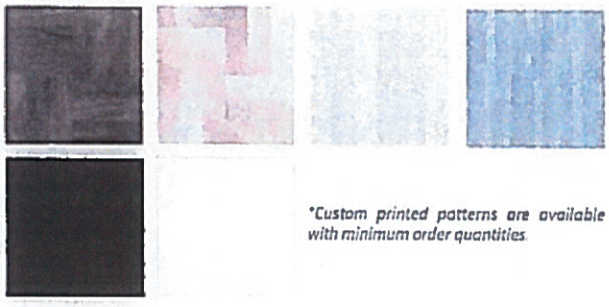
UL94HB (Underwriters Laboratory Yellow Card Number): This test signifies that EverBlock does not flare up when exposed to an open flame and has a slow burn rate of 2" per minute for a 2" wide, 0.5 millimeter thickness test sample. EverBlock meets all applicable standards for temporary floor covers.

Hot wire ignition rating: 3

ASTM 2859 (Flammability of finished textile floor covering materials): PASS

PATTERNS: USE FOR EBFD

We use a proprietary molded-in wood grain pattern. Because the pattern is fully integrated with the base tile, the floor is completely water proof, and will not peel, delaminate, or get waterlogged.



**Custom printed patterns are available with minimum order quantities.*

MATERIAL:

EBF1, EBF2, EBFD: Hi-Impact Polypropylene Co-Polymer ("no-break") with UV Inhibitors added for outdoor use.

EBAM4X8: Hi-Density Polyethylene (HDPE)

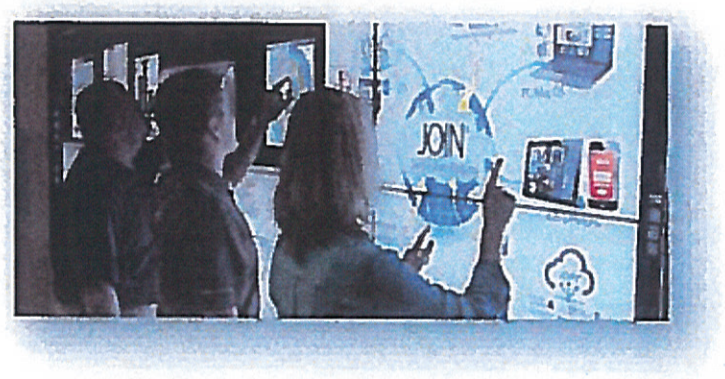
SENSORY TECHNOLOGIES | **OVERVIEW**

sensory technologies®

COMPANY INFORMATION

Sensory Technologies is a leading audio-visual and visual collaboration system solutions provider. Headquartered in Indianapolis, IN and regional offices in Chicago, IL, Syracuse, NY, Rochester, NY, Buffalo, NY, Ft. Wayne, IN and Louisville, KY, we have the resources to deliver our expert solutions to the Midwest as well as nationally.

Our technology, audio-visual system integration and visual collaboration solutions increase our client's productivity and communication effectiveness. We achieve this by providing our clients with a fully integrated solution consisting of system design, equipment procurement, integration and on-site service support.



Our projects are most visible in boardrooms, conference rooms, classrooms, training centers, hospitals, clinics, schools, universities, control centers, museums and many other specialized venues.

Expertise, experience, and an on-going commitment to client service is the foundation this company has been built on. Our strengths include:

- A highly trained and well-educated workforce providing a wide array of visual communication solutions
- A no-nonsense approach to business
- A consultative process to assess client needs with a roadmap for continued success
- A Client Solutions Center staffed 24 hours a day

AUDIOVISUAL PROVIDER OF EXCELLENCE APEX infoComm

By achieving the highest certification designation in the audio-visual industry, APEX, issued by Audio Visual Integrated Experience (AVIXA), Sensory Technologies is dedicated to excellence and the continued education of our workforce.

Purpose of this Document

The Functionality Statement below will constitute an agreement for the Equipment and services to be provided by Sensory Technologies, LLC ("Company"). Elements, including equipment, labor, or logistical details not specifically addressed in this document will be considered changes and/or additions to the Project, and may result in additional charges, timeline extensions, or both.

Once installed, your system(s) will be fully tested and commissioned by Company to ensure all Equipment is working as designed. This document will reappear to act as the commissioning checklist and to verify both Client and Company agree the installation is complete and fully operational. Upon completion and acceptance of the fully functional system(s), Company will provide instructive orientation to Client's staff regarding the use of the system(s).

Contents

Project Overview

1B Functionality Checklist
2 Customer Responsibilities
3 Price and Payment Terms
4 Service Agreement
5 Terms and Conditions
6 Agreement Acceptance
7 Attachments

Project Overview:

Glenwoodie Golf Club is looking to improve Audio & Visual components within their Banquet room as well as improve the audio over their outdoor speakers outside of the Clubhouse.

Current state: Banquet Hall

- Projectors not bright enough, reaching end of life
- Retractable mounts need new remote controls or Crestron control panel control
- Existing speakers work but no longer connected to the microphones
- Wireless microphone connectivity not reliable throughout the space and some completely dead spots
- Need ability to operate video & audio in the divisible room in separate or combined mode

Current state: Clubhouse

- Outdoor terrace speakers not loud enough for events

Future Proposed Design:

Display
Client will be keeping existing projectors and projector lifts at this time.

Two remote wall plates installed on either side of the banquet room will allow for HDMI® and VGA sources to connected to the projector(s). The DMPS3-4K-350-C Crestron presentation system includes a built-in AirMedia® gateway to enable wireless presentation from computers and mobile devices. This optional feature requires activation (license sold separately). A Crestron presentation system will allow the video to function separately between the divisible banquet hall rooms or on both simultaneously.

Audio
Two new Shure Access points use automated frequency coordination to assign clean frequencies to 2 handheld and 2 lavalier wireless microphones throughout the space. This new design allows any of the 4 microphones to be used together or operate separately between the three zones (combined or divided banquet hall and over the clubhouse outdoor speakers).

A Crown Four-channel, 300W Amplifier together with a Biamp digital audio signal processor will improve sound quality & control audio within all three spaces

Control
A Crestron control system will provide the following functionality:

- Route the audio/video sources (from wall plates) and microphone audio to the proper projector and speaker zones
- Sensory Technologies will create system presets to operate in "separate" or "combined" mode for the Banquet Hall. When in "separate" mode, microphones can be assigned to Banquet Hall Zone 1 or Zone 2. Microphones can also be assigned to Zone 3, the outdoor patio.
- Program audio & microphone volume control will consist of up/down/mute and mute all

Two replacement Infrared Remote Controls - IR10 will control the SL236SP projector lifts.

1A. Functionality Statement

The below items comprise the Functionality Statement of this solution. Once the system's functionality is agreed upon, a signature and payment for equipment will be secured and work will begin.

1B. Functionality Checklist

This Functionality Checklist will serve as the single document for verification of all acceptance criteria and validation by required signatories.

	Functionality Check-off	Notes
Crestron DM-RMC-4K-SCALER-C 4K DigitalMedia 8G+® Receiver & Room Controller w/Scaler (QTY 2) Provides a controller and interface for an HD or 4K display device as part of a complete DigitalMedia™ System. Includes a built-in 4K/60 scaler and analog audio output. Connects to the DM 8G+® output of a DM® Switcher or Transmitter via CATx cable. Compatible with HDBaseT®. Includes IR, RS-232, Ethernet, and relay control ports.		
Crestron DM-TX-200-C-2G-W-T -Wall Plate DigitalMedia 8G+® Transmitter 200, White Textured (QTY 2) Provides a remote wall plate or floor box input connection for HDMI® and VGA sources as part of a complete DigitalMedia™ System. Connects to the DM 8G+® input of a DM® Switcher or Receiver via DM 8G® Cable or CAT5e. Includes a USB HID device port, allowing a mouse/keyboard to be connected for controlling a computer or other host device at a different location. Mounts in a double-gang electrical box.		
AUDIO Shure MXWAPT4-Z10, 4-CH ACCESS POINT TRANSCEIVER (QTY 2) The eight-channel MXWAPT8 uses automated frequency coordination to assign clean frequencies to wireless microphone transmitters. •Works with Microflex® Wireless and devices equipped with Dante™ digital networked audio •Allows power to the unit via a single Ethernet cable •Features AES 256-bit encryption for secure transmission and bi-directional wireless capabilities •Includes MXWAPT8, paint cover, mounting plate, USB memory stick, and user guide		

Shure MXW2/SM58 -Handheld Wireless Microphone Transmitter (QTY 2) With an interchangeable SM58® microphone cartridge, MXW2/SM58 features dual transmit antennas that maximize transmission strength based on the user's hand placement. •Works with Microflex® Wireless •Offers up to 9 hours of continuous use with internal lithium-ion batteries and features a USB charging port •Features AES 256-bit encryption for secure transmission and bi-directional wireless capabilities •Includes MXW2/SM58, microphone clip, and user guide	
Shure MXW1/0-Z10 - Hybrid Bodypack Transmitter (QTY 2) MXW1 features both an integrated omnidirectional microphone and an input jack for connecting an ear worn or lavalier microphone. •Works with Microflex® Wireless •Offers up to 9 hours of continuous use with internal lithium-ion batteries and features a USB charging port •Features AES 256-bit encryption for secure transmission and bi-directional wireless capabilities •Includes MXW1, lanyard, belt clip, and user guide	
Shure WL185 -Lavalier Condenser Microphone (QTY 2) Wireless premium cardioid condenser lavalier mic for speech applications.	
Shure MXWNCS4 Networked Charging Station (QTY 1) MXWNCS4 is designed to blend into conference room aesthetics, allowing Microflex® Wireless components to charge without a tangle of cables.	
Biamp TesiraFORTÉ DAN VT (QTY 1) The TesiraFORTÉ DAN VT is a digital audio server with 12 analog inputs and 8 analog outputs, and includes Acoustic Echo Cancellation (AEC) technology on all 12 inputs. It includes up to 8 channels of configurable USB audio, a 2-channel VoIP interface, a standard FXO telephone interface, and Dante digital audio networking.	Crown DCi 4|300 -Four-channel, 300W @ 4Ω Analog Power Amplifier, 70V/100V (QTY 1) The new DriveCore™ Install series amplifiers is a complete line of high performance installation amplifiers based on the proprietary DriveCore technology. DCi Series amplifiers are designed, engineered and manufactured to the industry's highest quality standards, and provide system integrators with the advanced features and flexibility required for challenging 21st century installed sound applications. Versatile, compact and highly energy-efficient, DCi Series amplifiers continue the unbroken Crown tradition of leadership in professional and commercial power amplifier technology.	SWITCHING Crestron DMPS3-4K-350-C -3-Series® 4K DigitalMedia™ Presentation System 350 (QTY 1) Provides a complete 4K AV presentation control and signal routing solution for boardrooms and classrooms. Integrates the control system, matrix switcher, video scaler, streaming decoder, mic mixer, audio DSP, amplifier, and DigitalMedia distribution center all into a single 3-space rackmount package. Affords substantial signal routing flexibility and high-performance signal processing without the need for separate components. Built-in AV Framework™ enables simplified configuration and control without programming. The DMPS3-4K-350-C includes a built-in AirMedia® gateway to enable wireless presentation from computers and mobile devices. This optional feature requires activation (license sold separately).	
CONTROL C2N-IO - Control Port Expansion Module (QTY 2) An outboard module for adding control ports to a Crestron® touch screen control system or any other Crestron control system	Crestron TSW-760-W-S -7 in. Touch Screen, White Smooth (QTY 2) A space-saving wall, lectern, tabletop, or rack mount touch screen featuring a clean, contemporary appearance with edge-to-edge glass and advanced high-definition Smart Graphics® technology. Features onboard voice recognition, web browsing, H.264 streaming video, built-in camera, Rava® SIP Intercom, and PoE+ network power. Includes native applications for Crestron Fusion®, Microsoft®, Google®, Robin®, Teem®, Appspace® [1], Zoom™, and EMS Software™ room scheduling services, Zoom Rooms™ conferencing control, and Sonos® Home Sound System control.	
Crestron PWE-4803RU PoE Injector (QTY 2) Wireless premium cardioid condenser lavalier mic for speech applications.	RACK & CASEWORK MFR Series Rack, MFR-2027GE (QTY 1) Engineered and rigorously tested to provide years of trouble-free service, these racks feature premium bolt-through casters and rigid construction for reliability. This cost-effective furniture rack includes advanced features for reliability. Ships fully assembled. Additional Rack Equipment: -Power Strip, 16 Outlet, 15A -Lace Strip, 13 RU, 4.75"W, w/Tie Posts, 6 pc. -Rackrail, 10-32, 20 RU, MFR Series -Rackmount Power, 9 Outlet, 15A, Series Surge -Lace Bar, L-Shaped, 10 pc.	
**Additional installation parts, supplies & wiring not pictured.	

Installation includes: - Engineering & Design Services - Project Management Services - In-Shop Fabrication - On-Site System Integration, Test & Commissioning - Programming & Software Development - User Training - 1 year service agreement

Sensory Representative	Date

2. Customer Responsibilities

The following items shall be provided by the Client and are not part of this agreement or proposal:

- All 120V electrical provisions (Specifications provided by S.T. after executed Agreement)
- All conduit and raceway as required by local code
- Conveyance (pathway) for AV cabling- includes any core drilling or structural modifications.
    - (Specifications and call-outs provided by Sensory Technologies after executed Agreement)
- "Hard Points" for mounting of equipment:
    - Sensory Technologies shall provide equipment specific mounting hardware to be attached to structural support provided by the Owner.
    - When in doubt the Owner should contact a certified Structural Engineer for safety factors.
- Custom millwork, construction, or trim
- Required Local Permits and/or plan approvals
- Hazardous Material abatement
- Telephone and/or Data Network infrastructure
- Firewall configuration for videoconference traffic (S.T. to provide firewall configuration information)

- Modification or replacement of ceiling tiles and/or grid

3. Price and Payment Terms

The project price ("Price") is: $39,982.30

The Price contains the following components: an Equipment Payment and Services Payment(s), which includes a standard Service Agreement (please see Section 4. "Service Agreement" for further details).

The Equipment Payment component of the Price must be received by the Company prior to Equipment procurement.

The Equipment Payment component of the Price is: $25,656

This Agreement shall also serve as the initial billing for the Equipment Payment required for completion of the Project. The Client acknowledges and agrees that Client shall own and assume title to the Equipment at the earlier of: 1.) the point the Company procures the Equipment; or 2.) the point the Company's Equipment order is no longer cancellable with any 3rd party provider. As owner of the Equipment, Client agrees to bear the risk of loss, regardless of the location of the Equipment, however, Company shall maintain adequate insurance over the Equipment during such time when the Equipment is located on the Company's premise(s) or is under the Company's control. Evidence of insurance shall be provided upon Client's request.

The balance for the Services Payment is to be paid upon the completion date, Net 15 days (U.S. Funds only). Interest may be charged after maturity at the rate of two percent (2%) per month on the unpaid balance. For unpaid balances over 90 days the Client shall pay all reasonable legal and collection costs incurred by Company.
Company does accept payment from third party payment service companies (such as Paymode-X), but Company is not responsible for any fees related to the service. Any and all payment service fees are the responsibility of the Client.

4. Service Agreement

1 Year Standard Service Agreement includes the following:

Full Client Solution Center Services

- Prompt Client Solution Center technical phone support
  - Equipment troubleshooting
  - System troubleshooting
  - Videoconferencing testing
  - Network troubleshooting
  - Remote diagnostics
  - General information and assistance
- Manage and track service process through completion – Client Solution Center diagnoses inquiry, coordinates service resolution, and updates client

Full On-site Services

- Service calls (within 8 business hours)
- Warranty repair service
- Annual preventative maintenance
- Software upgrades when applicable

Response Time

- Client Solution Center – 15 minutes by phone, one business day by email
- Dispatching of technical assistance (within 8 business hours)

Not Provided

- Consumables (projector lamps, batteries, filters, etc)
- Loaner equipment
- Programming Alterations
- Service Labor, if:
  - Covered Equipment did not cause the reported issue
  - No issue was found
  - Issue due to Customer's negligence, misuse, fire, acts of nature, improper alteration, or relocation

Customer Responsibilities

- Allow Sensory Technologies employee's access to the equipment
- Prevent unauthorized modification or relocation of the equipment
- Insuring the equipment is recommended

5. Terms and Conditions

PURCHASE:

The Company agrees to sell and the Client agrees to buy the audio/visual equipment as specified ("Equipment"), the installation of such Equipment ("Installation"), and (as applicable) the design, engineering and consultation related to such Equipment and Installation ("Design") described on the Proposal Sheet which is attached and incorporated herein (collectively, the "Project") pursuant to the following terms and conditions.

PROJECT SCHEDULE:

Company anticipates work to begin approximately 6 – 8 weeks after receipt of the Equipment Payment. All work shall take place during normal business hours (8 a.m. to 5 p.m., Monday through Friday), unless requested otherwise by Client (in which case 2nd or 3rd shift premiums and/or overtime charges may apply). The exact Project commencement date will be coordinated between the Company and Client.

CHANGE ORDERS AND ADDITIONAL SERVICE:

Unless specifically documented on the Proposal Sheet and included in the Price, construction, repair and other work or materials related to the Project, including, but not limited to electrical, drywall, painting, millwork, underground trenching or laying or supplying conduit for wiring, are not included in the Price and Client agrees to pay Company for such services at the rate furnished to Client by Company at the time such services are requested by Client, unless otherwise agreed to in writing by Client and Company. The Client may order changes to the scope of the Project consisting of additions, deletions, or modifications with the Price and the completion date being adjusted accordingly. Company may initiate a Change Order for reasons including, but not limited to, encountering an Unavoidable Delay or Unknown Condition, or upon discovery that the Equipment specified on the Proposal Sheet has become obsolete, discontinued or unavailable. Any resulting adjustment to the Price will be based on the additional cost of labor, materials, overhead, Equipment and a reasonable profit margin. All Change Orders shall become binding upon written authorization by Client to proceed and upon written acceptance by Company.

DRAWINGS AND PLANS:

All drawings, designs, and plans created by the Company are the sole property of the Company and may not be duplicated or provided to anyone other than the Client. Only one Design will be provided by the Company. Redesigns or creation of a second Design requested by the Client will be considered a Change Order, and will be subject to additional charges to the Client.

SOFTWARE LICENSE:

The Company hereby grants a non-transferable software license to Client in connection with the establishment, use and maintenance of the system software installed by the Company. Software shall mean compiled object code or software programs necessary for the proper function and operation of the system as delivered by the Company and accepted by the Client. In no way does this software license confer any right to Client to license, sublicense, sell, or otherwise

authorize the use of the software, whether in compiled form, source code form or otherwise, to any third parties. Any software modification made by any party other than the Company will null and void any active Service Agreement or warranty. The Company shall at all times own all intellectual property rights and source code (also referred to as uncompiled code) in connection with the software, and shall maintain control of the software remotely. In the event Client fails to remit payment in full for the Project, then Company possesses the ability to deactivate the software license, which will cause the system to become inoperable. Company shall not deactivate the software license without first issuing adequate notice to Client and providing adequate opportunity to remit payment in full. Should system deactivation occur, the touch panel screen controlling the Equipment shall display notice of payment past due.

MARKETING MATERIALS:
Client grants ST, by way of initialing here_____, the right and license to use pictures, testimonials, case studies and other related items approved by Client in Company marketing and advertising materials without cost to Company. Client will be able to revoke any rights granted hereunder at any time by providing Company written notice. Upon receipt of such notice, Company will discontinue producing or publishing any new materials, but shall not be required to discontinue publishing items that are already in circulation, have been completed, or are in process of completion. Company acknowledges that, except for the rights granted to Company hereunder, Client shall retain all right, title and interest in and to Client content that may be included in Company marketing and advertising materials. Company acknowledges and agrees that Company shall not have any right, title or interest in or to Client content, and will not make any claim of ownership or interest in or to such content.

LIMITATION OF LIABILITY:
The Company shall not under any circumstances be liable to the Client or any third party for indirect, incidental, or consequential damages arising from the Installation, including, without limitation, inconvenience, loss of profits or revenues, loss or damage to other property or equipment, cost of capital, or for purchased or replacement goods. Furthermore, Company shall not be liable for damages in any way, nor shall Company be in breach of this Agreement due to the Client's inability to use, or due to the misuse of, the Equipment. Nothing herein shall limit either party's liability for direct damages caused by negligent or willful acts or omissions.

CANCELLATIONS RETURNS AND ALLOWANCES:

- If Client cancels the Agreement after execution but before the Equipment is ordered, then the Client shall be responsible for ten percent (10%) of the total Price to compensate Company for administrative and pre-engineering services performed.
- If Client wishes to cancel the Agreement or refuses or returns the Equipment after the Equipment is ordered, but before Installation, Client agrees to pay Company for all actual expenditures incurred, and committed expenditures and liabilities determined in accordance with generally accepted accounting practices, along with a restocking charge equal to twenty percent (20%) of the Equipment Payment.
- After Installation is complete and verified to be functioning properly by Client, Company is due all remaining amounts outstanding per this Agreement, and Client may not refuse or return any portion of the Equipment or cancel or reduce its obligations to Company in any way.
- Company shall have the absolute right to cancel or refuse to complete the Project if at any time Client becomes insolvent, files for bankruptcy, is placed in receivership, or otherwise fails to comply with the terms and conditions of this Agreement. Should such events occur, then Client agrees to pay Company for all actual expenditures incurred, committed expenditures and liabilities determined in accordance with generally accepted accounting practices, and a restocking fee equal to twenty percent (20%) of the Equipment Payment.

NON-SOLICITATION:
During the period of this Agreement and through twelve (12) months following the Agreement, the Client and Company mutually agree neither party will directly or indirectly solicit, take away, hire, employ or endeavor to employ any of the employees of the other party. Subject to this stipulation, either party may hire any individual who responds to a publicly posted job listing or who had previously terminated their employment with a party to this Agreement prior to the execution date of this Agreement.

GOVERNING LAW:
All disputes between the parties, whether or not arising out of this Agreement, will be governed by the laws of the State of Indiana.

FORCE MAJEURE:
Company shall not be liable for any delay in the completion of the Project caused by matters beyond Company's control, including, without limitation, the acts of any developer or contractor not affiliated with Company, acts of nature, labor strikes or disputes, acts of employees of suppliers of labor or materials and equipment, shortages or unavailability of labor or materials and equipment, damage or destruction by earthquake, storm, fire, theft, or other casualty, Change Orders, Client's acts or omissions or default under the Agreement, unknown or undisclosed structural conditions of the Client's facility or other conditions ("Unknown Conditions"), or adverse weather (if applicable), or unsuitable working conditions, or workspace which is not ready for the Installation ("Unavoidable Delays"). In the event of any Unknown Conditions or Unavoidable Delay, the completion date shall be extended for a period equal to the time lost to rectify such Unknown Conditions or by reason of such Unavoidable Delays. In the event of an Unavoidable Delay in excess of 90 days, Client, upon written notice delivered to Company, may opt to cancel the remaining Installation services set forth under this Agreement, subject to the terms and conditions delineated in the "Cancellations, Returns and Allowances" subsection above. In the event of the discovery of an Unknown Condition that impacts Company's ability to complete the Project within anticipated cost parameters, Client may opt to either execute a Change Order to allow for the Company's additional costs to complete the Project plus a reasonable profit margin, or cancel the remaining Installation services set forth under this Agreement, subject to the terms and conditions delineated in the "Cancellations, Returns And Allowances" subsection above.

TAXES:
Sales, use, excise, property and other taxes levied by municipal, state or federal governments arising out of or relating to this Agreement or the Project are not included in the Price. Client agrees to reimburse Company for any such tax or taxes which the Company may be required to pay.

6. Agreement Acceptance

By signing below, Client Representative is accepting the Agreement and attests to having the authority to enter into a binding agreement with Company and to having adequate time to fully review and consider all its requirements and stipulations.

ORDINANCE NO. 2019 - _____

AN ORDINANCE AMENDING CHAPTER 2 "ADMINISTRATION" OF GLENWOOD'S CODE OF ORDINANCES TO ADD NEW ARTICLES VII and VIII ADDRESSING THE FINANCE AND GOLF COMMITTEES

WHEREAS, the Village of Glenwood is a Home Rule municipality under the Constitution of the State of Illinois;

WHEREAS, the Corporate Authorities find and determine that it is in the Village's best interests to amend the Village Code to formalize provisions addressing the operations of the Finance and Golf Committees; and

NOW, THEREFORE, be it ordained by the President and Board of Trustees of the Village of Glenwood, Cook County Illinois, pursuant to their home rule powers as follows:

SECTION 1: RECITALS.

The forgoing recitals are true, correct and are a material part of this Ordinance. The forgoing recitals are incorporated herein into Section as if they were fully set forth in this Section.

SECTION 2. FINANCE COMMITTEE.

Chapter 2 of the Village's Code of Ordinances shall be amended to add a new Article VII which shall state in its entirety as follows:

ARTICLE VII
(FINANCE COMMITTEE)

Sec. 2-220 - Creation.

The Finance Committee that was previously established by Village custom and practice shall herein continue to exist as set forth in this Article.

Sec. 2-221 - Composition; appointments; qualifications.

(a) The Finance Committee shall consist of 6 members, which shall include the Village Administrator, Village Treasurer, the Village Finance Director, 2 members that shall be citizens of the Village ("Citizen Members") and one (1) Village Trustee ("Trustee Member").The 2 Citizen Members shall be appointed by the Village President and subject to the advice and consent of the Village Board of Trustees. The Trustee Member serving on the Finance Committee shall be appointed by the Village President and also serve as liaisons to the Village's Board of Trustees. The Village President shall provide the Board of Trustees with any written information or resume received from a proposed Citizen Member.

(b) One of the Finance Committee Citizen Members shall be designated by the Village President, subject to the advice and consent of the Village Board of Trustees, as Chairperson of the Finance Committee. In the event of a vacancy in the position of Chairperson, the Village President, subject to the advice and consent of the Village Board of Trustees, shall appoint another Citizen Member to serve as the Chairperson.

(c) If the Village President attempts to appoint a Citizen Member to the Finance Committee that does not receive the advice and consent of the Village Board of Trustees, the Village President shall make a temporary appointment of a Citizen Member to the Finance Committee until such time that the temporary Citizen Member can be replaced by a Citizen Member that receives the advice and consent of the Village Board of Trustees after appointment by the Village President. If the Village President attempts to appoint a Chairperson of the Finance Committee that does not receive the advice and consent of the Village Board of Trustees, the Village President may make a temporary appointment of the Chairperson until such time that the temporary Chairperson can be replaced by a Chairperson that has received the advice and consent of the Village Board of Trustees after appointment by the Village President.

Sec. 2-222 - Terms of office; compensation.

(a) Citizen Members. The Citizen Members currently serving on the Finance Committee as of June 1, 2019 shall continue to serve. In order to achieve staggered terms for the Citizen Members of the Finance Committee, the Village President, on or about September 1, 2019, shall, pursuant to Section 2-221, appoint (or reappoint) one (1) Citizen Member to the Finance

Committee to serve for a term ending May 31, 2021 and appoint (or reappoint) one Citizen Members to the Finance Committee to serve for a term ending May 31, 2022. All appointments or reappointments of Citizen Members for terms beginning after May 31, 2021 shall then be for 3 year terms. A vacancy of a Citizen Member position of the Finance Committee shall occur upon: (1) the resignation or death of the Citizen Member before the expiration of their term; (2) the date that a Citizen Member is no longer a resident of the Village of Glenwood; or (3) the Board of Trustees' approval of the Village Presidents request that the Citizen Member be removed for cause. In the event of a vacancy in the number of Citizen Members, the Village President shall appoint a replacement to fill the unexpired vacant term pursuant to the requirements of Section 2-221. If a vacancy has not occurred, a Citizen Member of the Finance Committee shall continue to serve until the later of either the expiration of their term or the date their successor is appointed pursuant to Section 2-221 and sworn.

(b) Trustee Member. The Trustee Member of the Finance Committee as of June 1, 2019 shall continue to serve for a term that expires May 31, 2020. All appointments of Trustee Members for terms beginning after May 31, 2020 shall be for a 1 year term. In order to rotate the service of Trustees on the Finance Committee, Trustee members appointed to terms beginning after May 31, 2020 shall not be reappointed to a new term that begins immediately after the expiration of a term in which they served as a Trustee Member. If a vacancy (as defined in the Illinois Municipal Code) occurs in the office of Trustee when that same Trustee was also serving as a Trustee Member of the Finance Committee, the Village President shall assign another Village Trustee to fill the unexpired Trustee Member vacancy for the unexpired term. If a vacancy has not occurred, a Trustee Member of the Finance Committee shall continue to serve until the later of either the expiration of their term or the date their successor is appointed and sworn.

(c) The Citizen Members and the Trustee Member shall not receive any compensation for their service on the Finance Committee.

Sec. 2-223 - Organization; records; reports.

(a) The members of the Finance Committee shall establish a regular meeting date and time each month and shall otherwise meet as often as deemed necessary upon the call of the Chairperson. A quorum of 4 members is necessary for the Finance Committee to meet. After a quorum is present, a vote of the majority of the members present shall be sufficient to approve any recommendation to the Village's Corporate Authorities. The members of the Finance Committee shall elect one of their own members to serve as the Secretary to the Finance Committee. The Secretary shall be responsible for taking minutes of any meetings. If the Secretary is absent, the Finance Committee shall appoint a temporary Secretary for the meeting. The Minutes of the meeting shall be filed with the Village Clerk or the Clerk's designee after they are approve by the Finance Committee. The Finance Committee shall comply with the Illinois Open Meetings Act, including, but not limited to it requirements for the posting of a notice and agenda for each meeting. The minutes of meetings shall be provided to the Village's Corporate Authorities and made available to the public pursuant to the Open Meetings Act. The Finance Committee shall transmit its reports and recommendations to the Village President and Board of Trustees in writing or verbally at a meeting of the Board of Trustees.

Sec. 2-224. - Powers and duties

The Finance Committee shall review the Village's proposed budgets as prepared by staff and make recommendations on same to the Village Board. The Finance Committee shall also make recommendations on the Village's financial policies, internal controls, investment policies, investment of funds, accounting practices and on such other matters as may from time to time be requested of it by the Village's Board of Trustees or Village staff.

SECTION 3. GOLF COMMITTEE.

Chapter 2 of the Village's Code of Ordinances shall be amended to add a new Article VII which shall state in its entirety as follows:

ARTICLE VIII

GOLF COMMITTEE

Sec. 2-230 - Creation.

The Golf Committee that was previously established by Village custom and practice shall herein continue to exist as set forth in this Article.

Sec. 2-231 - Composition; appointments; qualifications.

(a) The Golf Committee shall consist of 6 members, which shall include the Director of Golf Course Operations, the Director of Golf Course Buildings and Grounds, the Banquet Manager, 2 members that shall be citizens of the Village ("Citizen Members") and one (1) Village Trustee ("Trustee Member"). The Citizen Members shall be appointed by the Village President and subject to the advice and consent of the Village Board of Trustees. The Trustee Member serving on the Golf Committee shall be appointed by the Village President and also serve as liaisons to the Village's Board of Trustees. . The Village President shall provide the Board of Trustees with any written information or resume received from a proposed Citizen appointee.

(b) One of the Citizen Members shall be designated by the Village President, subject to the advice and consent of the Village Board of Trustees, as Chairperson of the Golf Committee. In the event of a vacancy in the position of Chairperson, the Village President, subject to the

advice and consent of the Village Board of Trustees, shall appoint another Citizen Member to serve as the Chairperson.

(c) If the Village President attempts to appoint a Citizen Member to the Golf Committee that does not receive the advice and consent of the Village Board of Trustees, the Village President shall make a temporary appointment of a Citizen Member to the Golf Committee until such time that the temporary Citizen Member can be replaced by a Citizen Member that receives the advice and consent Village Board of Trustees after appointment by the Village President. If the Village President attempts to appoint a Chairperson of the Golf Committee that does not receive the advice and consent on of the Village Board of Trustees, the Village President may make a temporary appointment of the Chairperson until such time that the temporary Chairperson can be replaced by a Chairperson that has received the advice and consent of the Village Board of Trustees after appointment by the Village President.

Sec. 2-232 - Terms of office; compensation.

(a) Citizen Members. The Citizen Members currently serving on the Golf Committee as of June 1, 2019 shall continue to serve. In order to achieve staggered terms for the Citizen Members of the Golf Committee, the Village President, on or about September 1, 2019, shall, pursuant to Section 2-231, appoint (or reappoint) one (1) Citizen Members to serve for a term ending on May 31, 2021 and appoint (or reappoint) one (1) Citizen Members to serve for a term ending May 31, 2022. All appointments of Citizen Members for terms beginning after May 31, 2021 shall then be for 3 year terms. A vacancy of a Citizen Member position of the Golf Committee shall occur upon: (1) the resignation or death of the Citizen Member before the expiration of their term; (2) the date that a Citizen Member is no longer a resident of the Village of Glenwood; or (3) the Board of Trustees' approval of the Village Presidents request that the Citizen Member be removed for cause. In the event of a vacancy in the number of Citizen Members, the Village President shall appoint a replacement to fill the unexpired vacant term pursuant to the requirements of Section 2-231. If a vacancy has not occurred, a Citizen Member of the Golf Committee shall continue to serve until the later of either the expiration of their term or the date their successor is appointed pursuant to Section 2-231 and sworn.

(b) Trustee Member. The Trustee Member of the Golf Committee as of June 1, 2019 shall continue to serve until May 31, 2020. All appointments of the Trustee Member for terms beginning after May 31, 2020 shall be for a 1 year term. The Trustee member appointed to a term beginning after May 31, 2020 shall not be reappointed to a new term that begins immediately after the expiration of a term in which they served as a Trustee Member. If a vacancy (as defined in the Illinois Municipal Code) occurs in the office of Trustee when that same Trustee was also serving as a Trustee Member of the Golf Committee, the Village President shall assign another Village Trustee to fill the unexpired Trustee Member vacancy for the unexpired term. If a vacancy has not occurred, a Trustee Member of the Golf Committee shall continue to serve until the later of either the expiration of their term or the date their successor is appointed and sworn.

(c) The Citizen Members and the Trustee Member shall not receive any compensation for their service on the Golf Committee.

Sec. 2-233 - Organization; records; reports.

(a) The members of the Golf Committee shall establish a regular meeting date and time each month and shall otherwise meet as often as deemed necessary upon the call of the Chairperson. A quorum of 4 members is necessary for the Golf Committee to meet. After a quorum is present, a vote of the majority of the members present shall be sufficient to approve any recommendation to the Village's Corporate Authorities. The members of the Golf Committee shall elect one of their own members to serve as the Secretary to the Golf Committee. The Secretary shall be responsible for taking minutes of any meetings. If the Secretary is absent, the Golf Committee shall appoint a temporary Secretary for the meeting. The Minutes of the meeting shall be filed with the Village Clerk or the Clerk's designee after they are approve by the Golf Committee. The Golf Committee shall comply with the Illinois Open Meetings Act, including, but not limited to its requirements for the posting of a notice and agenda for each meeting. The minutes of meetings shall be provided to the Village's Corporate Authorities and made available to the public pursuant to the Open Meeting s Act. The Golf shall transmit its reports and recommendations to the Village President and Board of Trustees in writing or verbally at a meeting of the Board of Trustees.

Sec. 2-234. - Powers and duties

The Golf Committee shall review and make recommendations on the Village's operations of the Glenwoodie Golf Course and its clubhouse including, but not limited to, fees and charges, expenditures, capital improvements, staffing levels and on such other matters as may from time to time be requested of it by the Village's Board of Trustees or Village staff.

SECTION 3: HOME RULE.

This Ordinance, and each of its terms, shall be the effective legislative act of a home rule municipality without regard to whether such Ordinance should: (a) contain terms contrary to the provisions of current or subsequent non-preemptive state law; or (b) legislate in a manner or regarding a matter not delegated to municipalities by state law. It is the intent of the corporate authorities of the Village of Glenwood that to the extent that the terms of this Ordinance should be inconsistent with any non-preemptive state law, this Ordinance shall supersede state law in that regard within its jurisdiction.

SECTION 4: INVALIDITY.

In the event any portion of this ordinance is found to be invalid, the remaining portions of this ordinance shall be severable from any such invalid portion and enforced to the fullest extent possible.

SECTION 5: REPEALER.

The specific terms and conditions of this Ordinance shall prevail against other existing ordinances of the Village to the extent there may be any conflict. All existing ordinances of the Village which directly conflict with the terms of this Ordinance are herein repealed.

SECTION 6: EFFECTIVE DATE.

This Ordinance shall be in full force and effect from and after its passage and approval and shall thereafter be published in pamphlet form.

PASSED by roll call vote this 20th day of August, 2019.

Fight Blight
proCHAMPS offers sound public policy to deal with neighborhood decay.

Visit us at www.prochamps.com

How does proCHAMPS help communities?

Requires banks to register, with points of contact and real people.

Creates a direct line of communication with property managers.

Team of dedicated professionals, assigned to your community, helping you to follow up with banks and getting you an answer.

No Out of Pocket Costs to the Community. Program is funded through registration fees.

proCHAMPS: 4 Easy Steps to Combat Foreclosure Blight

1

Community passes a model ordinance.

2

proCHAMPS staff researches/tracks properties, contacts banks, and gets them to register.

3

Community receives their share of the registration fees and information on responsible parties through a user-friendly and multi-functional database.

4

Code Officials can utilize our cutting edge, web-based interactive data platform to communicate directly with banks and our team will follow-up on your behalf.

In Jacksonville, the **proCHAMPS** solution has registered over **50,000** bank foreclosures.

"Our company works diligently on behalf of over 100 communities every single day to register these properties and remedy the problems that arise from them. We are proud of our record of accomplishment and look forward to any opportunity to show you what we can do for your community."

David Mulberry, President and CEO
Community Champions

proCHAMPS

A Proven Record of Success

- More than 125 communities utilizing **proCHAMPS** throughout the nation.
- Over 1 million property registrations to-date.
- **proCHAMPS** has doubled in size in the last 2 years, making us the nationwide industry standard.
- Lasting Relationships – many of our community partners have been utilizing our program for 7 years or more.
- **proCHAMPS** is a revenue neutral program.
