RE: UCMR 5 Sampling Results Available to View

PWS ID: IL0311050
PWS Name: GLENWOOD

Dear Public Water System,

Sampling results for U.S. EPA's Fifth Unregulated Contaminant Monitoring Rule (UCMR 5) are available for your public water system (PWS) in the Safe Drinking Water Accession and Review System (SDWARS 5). You received this automated email notification because you are registered for a SDWARS 5 account for this PWS. You will receive a notification each time new results become available.

If your results show that an unregulated contaminant was found, please review the Health-Based Reference Values for UCMR 5 document for context around UCMR 5 results in relation to EPA established minimum reporting levels (MRLs) and available health-based reference values. For example, the Agency established health advisory levels for four of the 29 per- and polyfluoroalkyl substances (PFAS) being monitored under UCMR 5. EPA's health advisories are non-enforceable and non-regulatory. EPA encourages early communications with your State and customers about results above an EPA health advisory and to determine if your PWS is subject to unique State requirements. When considering notification options for your customers, please be aware of the established Tier 3 Public Notification [40 CFR 141.207] and Consumer Confidence Report (CCR) [40 CFR 141.153(d)(7)] requirements (see **Next Steps** to learn more).

The new results are provided below. Resamples associated with this dataset may be in process. Results may not be available for a particular analyte or method if multiple resamples have been issued and the resample window has closed, or an issue at the laboratory precludes successful analysis.

How to view your results in SDWARS:

1. Log in to your [CDX account](#) and click on SDWARS 5.
2. Click the "Review Data" tab at the top of the screen.
3. To sort data, use the individual headers by clicking on them (e.g., Facility, Lab, Sample ID, etc.). To filter data, enter a specific identifier (e.g., Sample Point ID, Facility ID) in the Filter search box or enter a partial identifier.
 - a. Reported values equal to or greater than the UCMR 5 MRL are displayed in µg/L. Results less than the UCMR 5 MRL are displayed as "< MRL" in the Result Measure column.
4. Click on the **Analyte name** in [blue text](#) to view Quality Control (QC) data associated with the field sample result.
5. Click on the **Sample ID** in [blue text](#) to view comments from the laboratory.
6. To download or print the data, use the icons next to the Filter search box.

Next Steps

The Public Notification Rule requires PWSs to notify their customers about the availability of all UCMR results no later than 12 months after they are known. Community water systems (CWSs) are also required to report UCMR results in their annual Consumer Confidence Report (CCR) when unregulated contaminants are found. CWSs may include their public notice within CCRs, also known as annual drinking water quality reports, which are to be delivered to all billing customers each year by July 1. CWSs must report the average and range of the year's monitoring results. PWSs are responsible for being aware of and complying with their State's requirements, if any.

Results in SDWARS will ultimately be released to the public (approximately quarterly) via EPA's [UCMR Occurrence Data webpage](#) and [National Contaminant Occurrence Database \(NCOD\)](#).

Questions?

- For more information on SDWARS, please refer to the [SDWARS 5 tutorial \(video\)](#).
- For general questions about requirements or navigating SDWARS, contact the UCMR Message Center at [1-800-949-1581](tel:1-800-949-1581) or UCMR5@glec.com.
- To learn more, please review the [UCMR Meetings and Materials webpage](#) and the [UCMR 5 webpage](#).
- For information on EPA's proposed national primary drinking water regulation (NPDWR) for PFAS, visit [EPA's website](#). The proposed NPDWR does not require any actions until it is finalized.

We look forward to working with you to carry out the UCMR 5 monitoring and are prepared to assist as needed. Thank you in advance for your cooperation.
