

Special Notice for Availability of Unregulated Contaminant Monitoring Data

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Availability of Monitoring Data for Unregulated Contaminants for the Village of Glenwood.

Our water system has sampled for a series of unregulated contaminants. Unregulated contaminants are those that are not yet required to be tested for by the US EPA. The purpose of monitoring for these contaminants is to help EPA decide whether the contaminants should have a standard and whether the EPA should require periodic testing for these contaminants. As our customers, you have a right to know that this data is available. Your water has been tested and has been found to be safe. The results show that for each of the 30 contaminants tested, your water has less than the Minimum Reporting Level and Health-Based Reference Value set by the EPA.

Results can be found at the following link: <https://www.villageofglenwood.com>

If you have any questions, please contact Village President Ronald Gardiner at 708-753-2400 or One Asselborn Way, Glenwood, IL 60425.

This notice is being sent to you by the Village of Glenwood. State Water System ID#: IL0311050.
